Conclusion

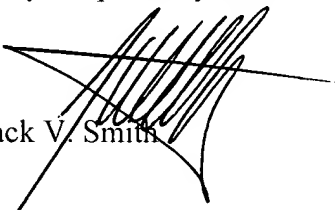

The applicant has deleted old claims 1-7 and added new claims 8-15 to define the invention more particularly and distinctly so as to overcome the rejections and define the invention patentably over the prior art.

For all of the above reasons, applicant submits that the specification and claims are now in proper form, and that the deleted claims 1-7 new claims 8-11 define patentably over the prior art. Therefore the applicant submits that this application is now in condition for allowance, which action is respectfully solicited.

Conditional Request For Constructive Assistance
